Suggested wheel alignment specs				Camber	Caster(6)	Toe
Optimum starting setting designed for use with Whiteline kit.				Deg	Deg	mm/side
Front	Touring			-1.0	Max	0.0
	Sport			-1.50	Max	0.0
Rear	Touring			-1.0	n/a	0.0
	Sport			-1.50	n/a	0.0 to 0.5 out

(1)-Height measurement in mm from centre of wheel to guard, +/- 1.5%. Superlow applications with extra rear load can use standard low. Heights only available when using Whiteline specified shock absorbers and may vary with model and options.

(2)-Retail in A\$ includes GST, excl. freight. Special net price for package part number. Valid till 30/6/2004 but subject to change without notice. All kit fitting prices include wheel alignment, are meant as suggestions and are only available when purchasing parts kit from same dealer.

(3)- Handling Pack "Club Extra" is a special enhanced version for car clubs and enthusiasts and has been put together with your input. Supplied with extra poly bushings

(4)-Options: These items not included in package but available as separate item.

(5)- Front is replacement strut insert cartridge with external adjustment. Rear insert installation will require cutting of existing strut tube to locate insert, externally adjustable. Both are sports rate twin-tube gas design.

(6)-KCA376 provides extra + 1.0 deg static castor while significantly changing anti-lift geometry to reduce power understeer. KCA342 kit is same as KCA376 but with out anti-lift component.

(7)-
